Pre-Wedding Photography

A fantastic additional service that is included in the price of your photography coverage is the engagement or pre-wedding photo shoot. It's always great to get to know my clients a little better before the big day and what better way than to get some fantastic photos at the same time.

We typically spend an hour or so at a favourite location, whether it is a local beach or park and get some great shots of yourself and your partner prior to the wedding. All the images are presented in a secure online gallery as well as having the high resolution image files.

Also, during the reception, whilst I am working with the bride and groom or arranging any group photos, my additional photographer is capturing the wedding guests and surroundings making sure all parts of the day are covered.
